

# GEO SYNTHETICS

**GEOWEB®**  
(cellular confinement system)

- Slope protection
- Channel protection
- Load support
- Earth retention
- Retaining walls

**CABLE CONCRETE®**  
(articulated concrete block system)

- Easy interlocking
- Allows vegetation re-growth
- Supports maintenance vehicles
- Low installation cost

**GEOBLOCK®**  
(porous pavement)

- Load support & turf protection
- Load support & stormwater storage
- Minimization of stormwater runoff

**BIOBARRIER®**  
(root control system)  
**BIOBARRIER® II**  
(weed control system)

- Along hardscapes
- Around pipes
- In dams/levees
- All around weed control

**SYNTEEN®**  
(soil reinforcement geogrids)

- Cost effective
- Easy to tension
- Available in both 6' & 12'

SYNTEEN TECHNICAL FABRICS

**TENAX®**  
(geocomposite subsurface drainage system)  
**Roadrain**

- Drainage
- Below pavement surface
  - Under base coarse
  - Beneath frost susceptible soils

**LINQ®**  
(wovens and nonwoven geotextiles)

- Erosion control
- Sediment control
- Drainage Control
- Separation & Reinforcement

**MEREDITH**
